

A restaurant Manager asked you to create a small system for his restaurant with the following requirements:

1. Customer should have beautiful welcome message followed by the restaurant menu:

2. The customer will give you the dish number, and the system should add it to the bill automatically.
3. Customer can order dishes as many as he/she can.
4. Customer can remove the dish from the whole order.
5. Once the customer has placed orders, show the bill to pay.
